To whom it may concern,

RE: Letter of good standing

MalaMala Game Reserve has procured the services of Thatchvacspray for the control of pests, the cleaning and sanitizing of the internal thatch roof area of 5 of our rooms. The chalets were left clean and smelling fresh. Thatchvacspray are a professional, courteous and efficient operation who I would recommend highly for the work they do.

We look forward to working with Thatchvacspray in the future for all our thatch roof cleaning and pest control requirements and can recommend their services.

Yours sincerely,

Ross Forbes
Operations Manager
